

**Nation Model Railroad Association  
PNR 7<sup>th</sup> Division**

**2022 Director at large report - by Ken Rutherford**

Over the past year, I have taken part in many email and Zoom meeting discussions with the other members of the executive dealing with the business of the division.

The board has had many issues to consider in our efforts to increase the value of NMRA to the membership. One subject in particular that we continue to discuss is some form of subdivision gatherings to provide a member benefit. We are still struggling with ways to fully implement this idea, though some progress has been made. We have recently started a phone call survey of the membership to find out what members would like to see happen. We hope you will participate if contacted.
